MORE THAN JUST PAVING

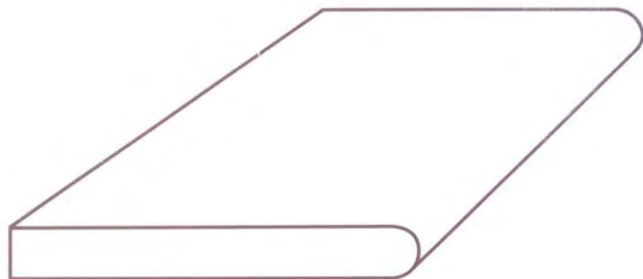

Travertine is said to be non-slip and twice the strength of concrete. Travertine is a wise choice around swimming pools, outdoor entertainment and indoor wet areas as it will remain cool under foot has a high co-efficient of friction meaning that Travertine will provide a safe walking and play service in these

FRENCH PATTERN

FINISHES

Travertine is available in a number of finishes from Honed & Filled, Honed & Un-filled or Tumbled. Each colour is available in each finish, but please be advised that not all colours are stocked in each of the finishes.

areas for the whole family. Travertine has a high natural salt resistance allowing it to be used inside your swimming pool as well as for coping and pool surrounds. Also making Travertine a excellent choice for pool surrounds, kitchen and bathroom floors, bench tops, wall cladding, patio and balcony flooring and even driveways.
